

Dear Kenesserie Camp Family,

Hey, folks, we want to take a minute to check in and just see how you're doing with these uncertain times. There is a lot of news about COVID-19/Coronavirus and information is changing every day. We hope that you can find some peace and calm during this time.

Our main concern right now is the health and safety of all of our campers and staff. We want to let you know what we're doing as we get ready for camp this summer in light of current circumstances with COVID-19/Coronavirus.

- First, we're monitoring information as it changes daily. We are checking in on the websites of the [local health unit](#), and [the federal](#) and [provincial governments](#).
- Second, we will be in contact with our local health unit prior to our camp opening in April to arrange our annual camp inspection and to talk about this issue.
- Third, we're reviewing our check-in procedures, our Health procedures and our cleaning procedures to make sure that we're following current best practices at the start of the camp season.
- Fourth, we will be in touch with you as things change. We are 3 ½ months away from the start of our camp season and we anticipate offering a full slate of camp sessions this summer but if for some reason this changes, you will be the first to know.

Please reach out if this is something you want to talk about some more or if you have any questions about the upcoming summer.

Dan Richards, Executive Director
